

## LTT TUTORS 2020-2021

**SANDY TRACY** homeschooled her own four children for 22 years, but has been teaching in a variety of settings for almost 35 years. She has a BA from Ursinus College, an MA from Westminster Theological Seminary, and a Master's in Education from Widener University. Sandy loves teaching math and helping students become more comfortable with the subject. She especially loves working with the homeschool community and helping make a subject that can seem quite challenging and unattainable, actually achievable and even enjoyable. **ALLISON DESAUTELL** taught her three boys at home from 1997 to 2014, and all three boys have now graduated from college. Since 2006, she has been a popular instructor at Good Company Tutorials teaching writing, literary analysis, study skills, SAT Prep, and Readers Theater classes. Known for successfully breaking down daunting academic tasks into manageable chunks, Allison helps students find success in every class she teaches. She has a BS in Therapeutic Recreation/Behavioral Science and is a registered IEW instructor who has now helped hundreds of students learn to write well. She is also a private tutor who has successfully helped students with behavioral and learning challenges improve their academic and executive function. **MELISSA LAMB** is a graduate of Worcester Polytechnic Institute with a BS in both Chemistry and Theatre Technology. After graduating, she attended Worcester State College for her teaching certification. She taught science in the Boston Public Schools for 5 years before leaving to raise her children. She is currently homeschooling her four children. She has been teaching with LTT since 2013. She has a unique ability to make hard topics understandable and students like her enthusiastic teaching style. [melissa745@gmail.com](mailto:melissa745@gmail.com)

**SHAYNE PICARD** served on the faculty at Masters Regional Academy in Smithfield, Rhode Island, for five years. He taught Algebra, Geometry, Advanced Math, and Physics, as well as Physical Education, Outdoor Skills, and other elective classes. He has three daughters who are currently home schooled and enjoys helping them with their studies, particularly with the development of reasoning skills. Shayne has a passion for helping people develop clear, logical thought and encourages students to constantly evaluate their beliefs—whether fundamental or trivial—for consistency. He works hard to maintain a broad scope of education in his classroom, tackling grammar issues, ethics, speech, science, or whatever else presents itself as he dialogues with his students.
